Subject: Deficient Notice of Intention to Commence Small Mining Operations, Martinique Mining, Corporation May Day Mill-Crescent Creek, S/017/0043, Garfield County, Utah

Dear Messrs. Heugly and Wilson:

The Division of Oil, Gas and Mining has reviewed the referenced amended Notice of Intention to Commence Small Mining Operations (NOI) received September 9, 2013, and the following items will need to be addressed before the NOI can be determined complete:

1. The current NOI is out dated and needs to be replaced. The current NOI is a combination of an old BLM mine permit and parts of an outdated NOI form. Please fill out a current NOI form. This form is available on the Division's web site at http://linux1.ogm.utah.gov/WebStuff/wwwroot/minerals/permit_forms.html. The form needed is MR-SMO.
2. The information on the submittal does not remove past officers. Page 2 of the NOI was not updated, and it still lists Avrahman Azouly and Erez Goldgraber as contacts.
3. Attached is a copy of the company officers listed with the Department of Commerce. Please include all officers in the NOI.

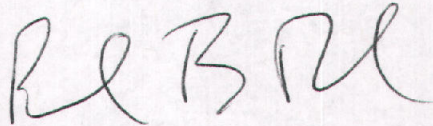

On a separate issue related to this mine, the Division has yet to receive documentation that contaminated soils observed during the May 24, 2013, inspection have been removed and disposed of in an approved disposal facility. This was the subject of cessation order MC-2013-42-04. Please provide this documentation no later than October 8, 2013.
